

- **Name:** Sung Eun Cho, M.D., Ph.D.
- **Current Position:**
Director, LabGenomics Clinical Laboratories
- **Country:** Korea
- **Educational Background:**
1998 Ewha Womans University School of Medicine, M.D., B.S.
2002 Ewha Womans University School of Medicine, Laboratory
 Medicine, M.S.
2006 Ewha Womans University School of Medicine, Laboratory
 Medicine, Ph.D.
- **Professional Experiences:**
2012.8.-2013.7. VA Hospital, UCSD, CA, USA, Research Fellow
2007.3.-2012.7. Eone Reference Laboratory, Vice President
2003.3.- 2007.2. Ewha Womans University School of Medicine, Laboratory
 Medicine, Fellow, Clinical Assistant Professor
- **Professional Organizations**
 - Korean Society of Clinical Chemistry (KSCC) Board Member: International
Committee Chair (2013-2016) / Treasurer (2009-2012)
 - Cherry Blossom Symposium (The 10th International Conference of Clinical
Laboratory Automation, 2016) Organizing Committee: Finance Chair
 - Korean Society of Laboratory Medicine (KSLM) Laboratory Management
Committee Secretary (2014, 2015)
 - Korean Society of Laboratory Medicine (KSLM) Spring Symposium
Organizing Committee member (2011, 2012)
- **Main Scientific Publications:**
 - Triplex tandem mass spectrometry assays for the screening of 3 lysosomal
storage disorders in a Korean population (Clin Chim Acta 2016;454:20-7)
 - Neonatal screening tests for inherited metabolic disorders using tandem mass
spectrometry: Experience of a clinical laboratory in Korea
(Lab Med Online 2015;5:196-203)
 - Clinical study of non-invasive prenatal testing using next-generation
sequencing (J Lab Med Qual Assur 2015;37:214-8)
