## RADIOMETER KOREA

### Product Highlights

#### ABL90 FLEX & AQURE

ABL90 FLEX is the latest blood gas analyzer from RADIOMETER. With ABL90 FLEX, you can get blood gas results as fast as 35 seconds and measure up to 17 parameters with full lab quality from 65 uL samples. Plus get full IT connectivity with AQURE(Data management system) / LIS / HIS, automatic quality management and minimum maintenance.

#### AQT90 FLEX

Test results when and where you need them – to make critical patient care decisions faster than ever. The AQT90 FLEX immunoassay analyzer is ready when you are. Introduce a new sample every 2 minutes – receive reliable results in as few as 10 minutes. Its high measuring accuracy and analytical performance are comparable to lab methods. Easy to use, the analyzer reduces demands on staff, eliminates user variability and further increases patient safety.
